Panorama® Window Films Obtain NFRC Rating

Leader in energy-saving window film manufacturing announces stringent certification requirements have been met

[Panorama](#) recently announced their entire line of window film products have passed the Product Certification Program (PCP) developed by the [National Fenestration Rating Council](#) (NFRC). NFRC is a non-profit organization that administers the only uniform, independent rating and labelling system for the energy performance of windows, doors, skylights and attachment products.

“The NFRC rating provides documented performance attributes of various fenestration products for residential and commercial properties,” explains James Benney, NFRC Executive Director. “This establishes a level playing field so manufacturers can accurately show consumers their products’ certified energy performance ratings,” Benney stated.

“The NFRC rating furthers our credibility within the industry and increases the value of our product to consumers by ensuring compliancy with strict industry standards,” explains Christophe Fremont, President, Bekaert Specialty Film. “We believe these standards will help consumers better understand and compare complex technologies and make informed decisions.”

Consumer confidence in the high-quality of Panorama Window Films is reasserted by this important validation of a well respected third-party. NFRC has tested and reported accurate performance values; all products and performance values are publicly available for review in the [NFRC Certified Products Database](#).

About Panorama®

Bekaert Specialty Films LLC., www.bekaertfilms.com is a global leader in the development, manufacture and distribution of specialty films for use as solar control and safety window films, and for industrial applications. The company delivers solutions for safety, security, glare, energy savings and CO2 emission reduction through a network of independent certified dealers and distributors in more than 60

countries under the Solar Gard[®], Panorama[®], Quantum[®] and Solar Gard[®] Armorcoat[®] brands. Bekaert Specialty Films also manufactures industrial films for the electronics, medical, graphic arts and imaging, automotive and aerospace industries. The company is the first in the industry to certify its carbon footprint, is a Climate Action Leader and is committed to environmental responsibility. Headquartered in San Diego, CA, Bekaert Specialty Films LLC is a subsidiary of the Bekaert group (Euronext Brussels: BEKB) a global company headquartered in Belgium with annual combined sales of €4 billion more than \$5 billion.

More information on Bekaert's professionally installed Panorama[®] window film is available at www.panoramafilm.com. For media inquiries, samples or photography contact bsf@matternow.com.
