Panorama[®] Window Film Delivers Complete Protection

PremierPlus warranty provides unmatched confidence in the decision to install film

The benefits of window film are clear: it maintains ambient light yet blocks up to 99% of dangerous UV rays; provides assurance that glass won't shatter during severe weather or break-ins; enhances comfort and reduces energy consumption. Yet in the past, home owners and commercial property managers have been concerned that installing window film could void their original glass manufacturer's warranty.

Panorama[®] window films is pleased to announce the availability of the [Panorama[®] PremierPlus Warranty](#), an industry leading window film warranty which matches or exceeds the original window manufacturer's warranty, regardless of the window brand. Now with PremierPlus, available only through official Panorama[®] dealers, customers will know their glass is fully covered in the event of breakage or seal failure. This peace of mind comes only with Panorama[®] window film, available in a wide variety of shades, from optically clear to opaque.

Christophe Fremont, President of Bekaert Specialty Films, manufacturer of the Panorama[®] window film says "Panorama[®] window film has always delivered residential and commercial customers a complete solution for UV protection, energy savings, and improved comfort and security. The PremierPlus Warranty provides complete confidence in this investment and eliminates doubts about the process of installing window film. PremierPlus warranties both the original glass and the film."

Official Panorama[®] dealers and additional information about PremierPlus Warranty can be found on the Panorama[®] website, www.panoramafilm.com.
